

**Within the Framework of the
United Nations Decade of Education for Sustainable
Development (2005-2014)
(Provisional)**

**6th International Symposium and Training Course
for Eco-Kids Instructors for Environmental Education
for Sustainable Development based on
Kids' ISO 14000 Programme**

at
**UNESCO Headquarters
Paris, France**

12th to 14th November, 2008

Organized by: ArTech, United Nations University (UNU)

Organized by: United Nations Educational, Scientific and Cultural Organization
(UNESCO)

Supported by

✧ United Nations Environment Programme (UNEP)

- ✧ International Organization for Standardization (ISO)
- ✧ Japanese Ministry of Education, Culture, Sports, Science and Technology
- ✧ Japan Electric Association

Kids ISO 14000 Programme has been sponsored & Supported by

- ✧ Aioi Insurance Co., Ltd.
- ✧ Agilent Technologies Japan, Ltd.
- ✧ CASIO COMPUTER CO., LTD
- ✧ Casio Inc.
- ✧ The Federation of Electric Power Companies of Japan (FEPC)
- ✧ Fuji Xerox Co. Ltd.
- ✧ GAKKEN CO., LTD.
- ✧ Hewlett-Packard Japan, Ltd.
- ✧ The Japan Foundation*
- ✧ MAEDA ROAD CONSTRUCTION Co., Ltd.
- ✧ Mizuho Financial Group.
- ✧ Nomura Holdings, Inc.
- ✧ Quality Assurance Institute Inc.
- ✧ SEIKO EPSON CORPORATION
- ✧ Sony Corporation
- ✧ TAIYO LIFE INSURANCE COMPANY
- ✧ The Tokyo Electric Power Company, Incorporated (TEPCO)
- ✧ Toyota USA Foundation

Chairpersons

Co-Chairperson: Takaya KAWABE (ArTech/UNU)

Co-Chairperson: Bernard COMBES (UNESCO)

Vice-Chairperson: Terence A. TODMAN, Jr. (ArTech Environmental Education Program, USA)

Secretary: Akatsuki TAKAHASHI (UNESCO), Miyuki KOYAMA (ArTech)

TRAINING COURSE

The participants will learn the following points in this three-day course.

- Brief coverage of global and local environmental issues including the position of environmental education of children.
- Description of Kids' ISO 14000 Programme
- The roles of Eco-Kids Instructor

- Implementation and management of the Kids' ISO 14000 Programme
- Methodology of introducing the Kids' ISO 14000 Programme in class at school and evaluation of the workbooks of Kids' ISO 14000 Programme
- Actual training of the evaluation of the workbooks.
- Consultation for the implementation of the Kids' ISO 14000 Programme in each country or local area.

COURSE OBJECTIVES

UN Decade of Education for Sustainable Development 2005-2014 –UN-DESD- is becoming more essential education of children to survive in the 21st century as human. The Kids' ISO 14000 Programme started in Japan in 2000 as an environmental education program for children in the school and in the home, however, this programme has been recognized as one of the essential programs for children to survive in 21st century

Kids' ISO 14000 Programme has been showing its effectiveness in
 (1) stimulating environmental awareness of children, (more than 80% of children who participate this program increased their environmental awareness, and more than 60% of their family member also increased awareness) ;
 (2) teaching simplified methodology of environmental management, and
 (3) giving children the concept and experience of working together and networking locally and internationally to solve current local and global environmental issues which we are facing today.

As a result from implementing this programme to about 150,000 children, more than 50,000 tons of CO2 emission has been reduced according to ArTech's estimate.

Kids' ISO 14000 Programme has been expanding throughout Japan ever since by the local Governments such as Tokyo Metropolitan Government took Kids' ISO 14000 Programme into their environmental policy and programs. Furthermore, private sector, such as companies and industries are also using this programme for their Corporate Social Responsibilities (CSR) activities.

The Kids' ISO 14000 Programme is now expanding internationally through UN organizations (UNU, UNEP, UNESCO) and International organization (ISO). Following Australian implementation in 2004, Korea has also implemented the programme in 2005. In 2008, the state of Kuwait and the private and public schools in New York City has also implemented the Kids' ISO 14000 Programme.

Globalization is a trend of human society on the earth. In this sense, it is important to learn about what the international standardization means from childhood. On the other hand, In the design phase of the Kids' ISO 14000

Programme, special attention was paid to keep their own culture in each local edition, in which the context should have elements of the local environmental management and education, while the data format is common in various edition, so that children can compare their effort and can learn about commonality and difference, simultaneously.

In this programme system, Eco-Kids Instructors play crucial roles in evaluating the workbook done by children, coordinating and managing this programme. In this Eco-Kids Instructors training course, participants will be provided with basic knowledge of the Kids' ISO 14000 Programme, and also will learn how to make evaluation of the introductory level workbook. Consultation on specific country implementation will be organized at the end of the course.

The International Symposium and Training Course at UNESCO is becoming the platform for exchanging the experience of implementation in national and local level with international communities in this field.

May 2004, UNU, Tokyo

Nov. 2004, UNESCO, Paris

Nov. 2005, UNESCO, Paris

Nov. 2006, UNESCO, Paris

Nov 6-8, 2007, UNESCO, Paris

KNOWLEDGE and SKILLS:

- Understand and share children's awareness through the programme.
- Understand the PDCA cycle and advise children on the programme properly.
- Find inconsistent elements in children's activity and guide children in the right direction.
- Find children's good points and praise them.
- Computer skills to use applications such as Word, Excel and E-mail.

COURSE CERTIFICATE

Participants who attend the full course will be awarded a certificate of completion of the course.

COURSE INFORMATION

Date: November 12-14, 2008
Place: UNESCO Headquarters, Paris. France
Meeting Room XVI, Bonvin/Miollis building, 1, rue Miollis 75732
Paris Cedex 15 France
Language: English

Equipments: The participants should bring a lap-top computer that has MSWord and Excel on it and a calculator for the training course.

Registration Form:

Please contact Kids-ISO14000@hq.unu.edu

Programme

November 12, 2008

09:45 Opening

- ✧ UNESCO Representative
- ✧ ArTech/UNU Representative

10:00 “UN Decade of Education for Sustainable Development”
Bernard Combes (UNESCO)

10:45 “Systems of Kids’ ISO 14000 Programme for Environmental Education and Results from Implementation”

Takaya KAWABE (ArTech/UNU)

- ✧ Design Philosophy
- ✧ Aims of the programme
- ✧ Systems of the programme
- ✧ Eco-Kids Instructor and its levels
- ✧ Results from Implementation to Japan
- ✧ International expansion
- ✧ Scenarios of implementation of this programme
- ✧ Training Courses of Eco-Kids Instructors, E-Learning System

11:45 “Implementation of Kids’ ISO 14000 Programme in USA”
Terence A. Todman, Jr. (ArTech, USA)

12:15-14:00 Lunch, (UNESCO Cafeteria or nearby Restaurant)

14:00 “Implementation of Kids’ ISO 14000 Programme in Kuwait”
Maryam Al-Wateed (Ministry of Education, the State of Kuwait)

14:30 “What is ISO for CSR and Kids’ ISO 14000 Programme”
Hidemi TOMITA (ISO & Sony Corp.)

15:00 “CSR in Fuji-Xerox Corporation”
Yasushi SAKATA, Fuji-Xerox Co. Ltd.

15:30-16:00 Coffee Break

16:00 “CSR with Kids’ ISO 14000 Programme in SEIKO-EPSON”
Yutaka KAWAGUCHI & Kazuaki SHINOHARA (SEIKO-EPSON)

16:30 "Casio's Support to Kids' ISO 14000 Programme"
Hideaki TERADA (Casio America Inc.)

17:00 Q & A, Discussion

17:30 Photo-Taking

18:00 Reception

Nov. 13, 2008

Training Course of Eco Kids Instructors for Kids' ISO 14000 Programme

09:30-10:00

"Philosophy, System of Eco Kids Instructors, Tasks, Methodology of Evaluation of Workbook"

Yasushi Sakata (ArTech Eco Kids Instructor)

- ◇ Evaluation of management capability
- ◇ Evaluation of awareness of children throughout the work with the workbook
- ◇ Evaluation of data taken by children
- ◇ Message writing for evaluation sheet.

10:00

"Workbook Evaluation Practice"

Introductory Level of Kids' ISO 14000 Programme

--- case A ---

Yasushi Sakata (ArTech Eco Kids Instructor)

12:15-14:15 Lunch, (UNESCO Cafeteria or nearby Restaurant)

14:15-17:00

More Workbook Evaluation Practice

- ◇ case B,
- ◇ case C,
- ◇ case D,
- ◇ Q & A

Nov. 14, 2008

Training Course (Second day)

09:30 "Data Analysis"

- ◇ How to prepare the software for data analysis
- ◇ How to fill the data analysis sheets
- ◇ How to print data analysis for children
- ◇ How to evaluate reduction of CO₂
- ◇ Evaluation sheet for GHG certificate

11:00 Data Evaluation Practice

12:15-14:15 Lunch, (UNESCO Cafeteria or nearby Restaurant)

14:15 More Date Evaluation Practice

- ✧ Printing out of Evaluation sheet
- ✧ Primary level Workbook.
- ✧ Q and A

16:15 Awarding Ceremony

16:25 Closing Remarks

Takaya KAWABE (ArTech/UNU)
UNESCO representative

17:00 Adjournment

17:00-17:45 “Consultation for Specific subjects on implementation of Kids’ ISO 14000 Programme to each country”

COURSE REGISTRATION

1. For registration, please, request the registration form and hotel information to Shuichi Nakano (secretary) at Kids-ISO14000@hq.unu.edu or fax it to [+81-3-3406-7347](tel:+81-3-3406-7347).
2. Course Fee: €50 for the symposium only (12 November) and €100 for the symposium and training course/- per participant. The course fee does not include the cost of travel, lodging, meals and boarding expenses of participants.
3. Please pay the registration fee at the Registration Desk on the first day of the course or by bank transfer before start of the course.
4. Maximum seats: 30-50 for the symposium and 10 for the training course.
